House Bill 5851 (As Introduced)

Topic: Liquor Licensee Owning or Operating Motor Fuel Pumps
Sponsor: Representative Lindberg
Co-sponsors: Representatives McDowell, Polidori, Neumann, and Bennett
Committee: Regulatory Reform

Date Introduced: February 23, 2010

Date of Summary: March 1, 2010

The bill amends Section 541 of the Liquor Control Code of 1998 by allowing motor vehicle fuel pumps on or adjacent to the licensed premises if the applicant or licensee is located in a neighborhood shopping center or the licensee maintains a minimum inventory of not less than \$50,000 of goods and services customarily marketed by such businesses. The bill strikes language that makes motor vehicle fuel part of the calculation of the required inventory. The bill deletes the current requirement that the applicant meet two criteria and strikes the current requirement that the site of payment and selection of alcoholic liquor is not less than 50 feet from the place where fuel is dispensed.

DELEG is an equal opportunity employer/program.
